

NATO Map Marking Symbols Pack 1
Icons for Operations Other Than War (OOTW)

Guide

These APP-6a symbols have been created so they can be used in two ways. As in real life, marking maps up in colour is not always an option so `borders` have been used around the symbols to allow not having to colour the unit. Alternatively you can choose to colour the symbols using the appropriate colour choice in the editor.

Finding Symbols in the Editor

All symbols can be found in the editor under `Markers`

In the drop down list in the mission Editor, the symbols will be prefixed by the letters "OOTW" I.e. to insert the sniping symbol look for "OOTW Sniping"

VIOLENT ACTIVITIES

	<p>Arson/Fire Named In Editor: <i>OOTW Fire</i> Description:</p>
